

THE 6A's FRAMEWORK

AWARENESS

**You've been told a quiz
can tell you who you are.**

REALITY

**Chasing
what you
were told to
want, not
what you
actually do.**

DEFINITION

**Awareness:
knowing
yourself
well
enough to
choose.**

ELEMENTS

- > **Interests** - what you find engaging and meaningful
- > **Skills** - what you've built, and where the gaps are
- > **Other Influences** - your values, limits and the voices you listen to

RETHINK

**Career
quizzes
generate
hypotheses,
not answers
about you.**

SHIFT

**You
discover
what fits
through
experience,
not
assessment.**

Agency

Awareness

Allyship

Agility

**The better
you know
yourself,
the better
every other
move gets.**
